

Extended Syllabus

Course Title	Macroeconomics for International Commerce	Semester	Fall 2026
Credit	3	Course Number	TIC2003
Class Time	Tue/Thu 12:00-13:15	Enrollment Eligibility	All students at the Geppert School of International Studies

Instructor	Name: Iegor Vyshnevskiy	Homepage: https://iegor-vy.github.io/
	E-mail: ievys_h_at_sogang_dot_ac_dot_kr	Telephone: 02-710-2562
	Office: J721 Office Hours: TBU Additional Availability: Online meetings available upon request via email	

I. Course Overview

1. Description					
This course introduces macroeconomic theory and policy using the innovative CORE Economics approach, with a strong emphasis on real-world applications for international business. Students examine how unemployment, inflation, financial markets, and government policy influence global commerce. The course covers key macroeconomic concepts—from labor markets and aggregate demand to exchange rates and international capital flows—through contemporary case studies and data analysis. Topics include financial crises, digital currencies, trade policy, technological change, and the political economy of macroeconomic decision-making. Rather than relying on abstract theory alone, the CORE methodology prioritizes practical relevance and engagement with today's global economic challenges.					
2. Prerequisites					
Students may find it extremely helpful to have completed the Introduction to International Commerce (TIS1002) course beforehand. However, any other introductory level economics course will suffice.					
3. Course Format (%)					
Lecture	Discussion	Experiment /Practicum	Field study	Presentations	Other
70 %	30%	%	%	%	%
4. Evaluation (%)					

Mid-term Exam	Final exam	Quizzes	Presentations	Flipped-learning / Group Activities	Flipped-learning / Individual Assignments	Participation	Other
30 %	30 %	%	%	20%	10 %	10 %	%

II. Course Objectives

The main objective is to provide a basic understanding of macroeconomic theory and policy, focusing on real-world applications for international commerce. By the end of the course, students will have developed analytical skills to assess how macroeconomic conditions shape international business decisions, trade patterns, and economic development, preparing them for careers in global commerce and policy analysis.

III. Course Format

(* In detail)

* This course is planned to be partially conducted as a flipped learning course. Some class time will be used for in-class activities. Students should prepare the activities before class by watching video lectures online. What is flipped learning? Please see [FLIP_handout_FNL_Web.pdf](#)

** Guest speakers from the field will provide insights into real-world policy challenges.

- Pre-class online preview lecture (<20~30 min.) + pre-class indiv. assignment (Cyber Campus)
- In-class lectures and flipped learning type group exercises
- Post-class reflection group report + indiv. problem sets (<10 short questions, Cyber Campus)
- TA Q&A sessions for exams

IV. Course Requirements and Grading Criteria

- All assignments should be submitted by the beginning of classes on due dates.
- On national or university holidays (Chuseok holidays), recorded lectures will be provided on the course website. Students should complete watching the lecture and submit assignments by the end of the week.

V. Course Policies

- The University's Honor Code and Academic integrity will be strictly reflected. Any plagiarism will result in not only zero credit for this assignment but also a fail (F-grade) in this course.
- No photos or video are allowed in class. All lecture slides are provided before classes start.
- COMMUNICATION: Students are strongly recommended to have all class-related discussions and Q&A through the Learning Management System (LMS). The quicker you begin asking questions here (rather than via emails), the quicker you'll benefit from the collective knowledge of your

classmates and TA, and me together. I encourage you to ask questions when you're struggling to understand a concept—you can even do so anonymously. Also, you can leave your own answers, and I can endorse your answers as good answers. Notice that you can leave your question for me privately.

VI. Materials and References

Lecture slides (available at the Cyber Campus before a particular class)

Main:

Carlin, Wendy and David Soskice (2024) *Macroeconomics: Institutions, Instability and Inequality*. Oxford University Press, free pdf online via <https://sites.google.com/site/wendycarlinucl/new-book>

Additional:

Mankiw, N. Gregory (2024) *Principles of Macroeconomics*, 10th Edition, Cengage

The Core Econ Team (2024) *The Economy 2.0: Macroeconomics*

Free e-book available at <https://books.core-econ.org/the-economy/macroeconomics/0-3-contents.html>

VII. Course Schedule

(* Subject to change)

Week	Contents	Note
1	1. Course intro. The demand side	
2	2. The supply side	Flipped Learning
3	3. The 3-equation model and macroeconomic policy	
4	4. Expectations and monetary policy	
5	5. Money, banking, and the macro-economy	
6	6. Monetary policy	
7	7. Fiscal policy	
8	<i>Midterm Exam</i>	
9	8. Sources of financial sector instability, risk and the global financial crisis: applying the models	
10	9. Financial stability policy	
11	10. Exchange rates, capital flows, and macroeconomic policy in an open economy	
12	11. Trade, external balance, and international competitiveness: demand and supply in the open economy	
13	12. Supply-side institutions, policies, and performance	
14	13. Growth and innovation (ICT, AI, etc.)	
15	14. Macroeconomics of the green transition: climate change, sustainable growth, and international commerce	
16	<i>Final Exam</i>	

VIII. Special Accommodations

All exams are scheduled accordingly. No make-up exams, except the cases allowed according to the University Rules.

IX. Aid for the Challenged Students

Sogang University is committed to creating a learning environment that meets the needs of its diverse student body. If you anticipate or experience any barriers to learning in this course due to your challenges, please feel welcome to discuss your concerns with me.

Ver. 1.1 (July 27, 2026)

*** The Fine Print:** This syllabus and course schedule may change throughout the course depending on your learning needs and Professor's judgment.
